HOW TO IDENTIFY A GENUINE BANKNOTE

Move

Move the banknote in different directions to ensure that all security features are visible and interchanging.

قد بإمالة الورقة النقدية في جميع الاتجاهات، وتحقق من وضوح كافة عناصر العلامات الأمنية وتبادلها مع بعضها البعض.
Look

Ensure the presence of the security features on the banknote and the clarity of its colors and without any overlapping.

Touch

Ensure that the banknote has a raised texture, and feel the embossed print of all written characters on the front and back side of the banknote.
Security Features for the Two-Hundred Saudi Riyal Banknote

- **Bright Silver Stripe**
  - A bright stripe contains in the center the Emblem of the State (the Two Swords and a Palm Tree) and the note value (٢٠٠). When tilting the note, they appear separately.

- **Special Inks Layer**
  - An ornamental shape contains the value of the note (٢٠٠). When tilting the note horizontally, moving 3D shapes appear.
Tactile printing spreads over the face and the back of the note so as to add durability, rough texture, harmonious color and clear design.

A security stripe appears on four parts, showing the Emblem of the State (the Two Swords and a Palm Tree), and the value of the note (٢٠٣٠) in 3D shape. When moving the note, they appear moving and separate.
